

Huron Co-operative

WIND

Welcome to the Huron Community Power Co-operative Inc. We are based in Huron County in south western Ontario, Canada.

Our Co-op has five wind projects totalling approximately 50 MW. These projects are currently in the planning and development stages.

GREEN FACT

These projects are the equivalent to taking approximately 6,085³ cars off the road, which would be equal to 17,200⁴ tonnes of carbon emissions **NOT** going to our environment.

One-time membership in this Co-op costs
\$500

Call us today, to discuss your membership opportunity.

1. Conservative estimate of a project consisting of class 3 turbines at 100m hub heights. Energy yield is based on the Ontario Wind Atlas data. 2. Based on Ontario Power Authority 2008 estimates of 1000kWh/mth per household. 3. Based on Statistics Canada estimates of 1750kg CO₂ per capita vehicle emission per year for Ontario for 2007 and 2009 estimate of 620 vehicles per 1000 people in Canada. 4. Based on 2009 environment Canada estimates of 100g/kWh for CO₂ equivalent emissions. 5. Project size is subject to change until further detailed technical review has been completed.

Clinton project		
Project size approx. ⁵ 10MW	Estimated Power Generation ¹ 34 million kWh per yr	Estimated Commercial Operation 2 quarter 2015
Seaforth project		
Project size approx. ⁵ 10MW	Estimated Power Generation ¹ 35 million kWh per yr	Estimated Commercial Operation 2 quarter 2015
Zurich project		
Project size approx. ⁵ 10MW	Estimated Power Generation ¹ 35 million kWh per yr	Estimated Commercial Operation 2 quarter 2015
Centralia project		
Project size approx. ⁵ 10MW	Estimated Power Generation ¹ 33 million kWh per yr	Estimated Commercial Operation 2 quarter 2015
Constance project		
Project size approx. ⁵ 10MW	Estimated Power Generation ¹ 33 million kWh per yr	Estimated Commercial Operation 2 quarter 2015

Estimated

\$125,000,000

Economic development & private investment in Ontario meeting the 50% domestic Ontario content of the FIT program.

Benefits to you

- ✓ Establishment of a community fund(s)
- ✓ Opportunity to further supplement your income
- ✓ Contribute to a cleaner environment while powering an estimated 14,300² homes per year
