

## WIND

Welcome to the Chatham-Kent Renewable Energy Co-operative Inc. We are based in south western Ontario, Canada in the Municipality of Chatham-Kent.

Our Co-op has four wind projects totalling approximately 36 MW. These projects are currently in the planning and development stages.

### GREEN FACT

These projects are the equivalent to taking approximately 4,400<sup>3</sup> cars off the road, which would be equal to 12,500<sup>4</sup> tonnes of carbon emissions **NOT** going to our environment.

One-time membership in this Co-op costs

**\$500**

**Call us today, to discuss your membership opportunity.**

TOLL-FREE: 1-855-607-1016

### Duart North project

Project size approx.<sup>5</sup>  
**10MW**

Estimated Power Generation<sup>1</sup>  
**31 million kWh per yr**

Estimated Commercial Operation  
**2 quarter 2015**

### Duart South project

Project size approx.<sup>5</sup>  
**10MW**

Estimated Power Generation<sup>1</sup>  
**34 million kWh per yr**

Estimated Commercial Operation  
**2 quarter 2015**

### Wallaceburg project

Project size approx.<sup>5</sup>  
**10MW**

Estimated Power Generation<sup>1</sup>  
**36 million kWh per yr**

Estimated Commercial Operation  
**2 quarter 2015**

### Wheatley project

Project size approx.<sup>5</sup>  
**6 MW**

Estimated Power Generation<sup>1</sup>  
**23 million kWh per yr**

Estimated Commercial Operation  
**2 quarter 2015**

Estimated

**\$90,000,000**

Economic development & private investment in Ontario meeting the 50% domestic Ontario content of the FIT program.

## Benefits to you

- ✓ Establishment of a community fund(s)
